This book consists of **6 Parts** (Volumes)

**Part 5**

**Arabic Words, Phrases, Groups of Key Words, and Verses of the Quran, arranged according to the order of their Numerical Values**

**Important Hijri years**

In this book, we mention specific Hijri years, without necessarily mentioning how they correspond to Gregorian years. Hijri years are lunar years. Hijri years consist of 354 days and the leap Hijri years consist of 355 days. So, Hijri years are shorter than Gregorian years by 11 days. There are 12 months in a Hijri year. Hijri months are either 29 or 30 days. The following shows the beginning and end of each of the following important Hijri years:

- **1440 Hijri** (starts on September 11, 2018 – ends on August 30, 2019)
- **1454 Hijri** (starts on April 12, 2032 – ends on March 31, 2033)

**List of Hijri Months**  (From the 1st to the 12th month):

On May 6, 2001 (Safar 13, 1422 Hijri) (Iyar 13, 5761 Jewish) (2452,035.5\(^{\text{th}}\) Julian Day), during a trip to Syria, Pope John Paul II became the first pope to enter a mosque when he entered the Umawi Mosque in Damascus to visit the relics of Prophet Yahya (John the Baptist).

On September 11, 2001 (Jumada Thania 23 (or 22), 1422 Hijri) (Elul 23, 5761 Jewish) (2452,163.5\(^{\text{th}}\) or 2452,164\(^{\text{th}}\) Julian day) in a series of coordinated attacks, two hijacked aircrafts crashed into the World Trade Center in Manhattan, New York City, the twin towers of the World Trade Center collapsed, while a third aircraft smashed into the Pentagon (Headquarters of U.S. Department of Defence) and a fourth aircraft crashed into a field near Shanksville, Pennsylvania. The U.S. government accused Al-Qaeda of orchestrating these events. However, the truth is that these
events were orchestrated by the Zionists. In total 2,996 people are killed. It is worth noting that 60 years earlier, on September 11, 1941, ground-breaking ceremony for the construction of the Pentagon was held. Furthermore, Manhattan was discovered on September 11, 1609 Julian (Jumada Thania 11 (or 12), 1018 Hijri) (Elul 12, 5369 Jewish).

On October 7, 2001 (Rajab 19, 1422 Hijri), the U.S. started its invasion of Afghanistan.

On February 21, 2002 (Zu Al-Hijja 9, 1422 Hijri) (Adar 9, 5762 Jewish), following a rash of bombings by Palestinian militants, Prime Minister of Israel, Ariel Sharon, declared his support for construction of a barrier between Israel and the West Bank. On April 14, 2002 (Safar 1, 1423 Hijri) (Iyar 2, 5762 Jewish), Sharon's security cabinet approved a plan to build three "buffer zones" in areas where the Palestinian militants had frequently infiltrated Israel. Israel started the construction of the Barrier (or Wall) between Israel and the Western Bank on June 16, 2002 (Rabi Thani 5, 1423 Hijri) (Tammuz 6, 5762 Jewish Calendar) (2452,441.5th Julian Day).

On March 29, 2002 (Muharram 15, 1423 Hijri) (Nisan 16, 5762 Jewish), Israel began what it called “Operation Defensive Shield”, an invasion of Palestinian towns in the West Bank. During the Operation, Israeli tanks and troops besieged Arafat’s Palestinian Authority Headquarters in RamAllah, prohibiting him from leaving till May 2, 2002 (Safar 19 (or 20), 1423 Hijri) (Iyar 20, 5762 Jewish). At approximately 2:00 a.m. on April 2, 2002 (Muharram 19, 1423 Hijri is 19th day of 1423 Hijri) (Nisan 20, 5762 Jewish), the Israeli forces invaded Bethlehem (the birth town of Jesus, which is about 20 miles south of Ramallah) using about 250 tanks and armored carriers of troops, fighter jets, and combat helicopters. By 4:30 a.m., Israeli forces seized full control over Bethlehem, except the Old Town of Bethlehem. Around 11:30 a.m., Israeli occupation forces shelled Santa Maria Church, and as a result, several priests and nuns were wounded. About 200 Palestinian civilians (including Muhammad Al-Madani, the governor of Bethlehem) and militants fled to the Church of the Nativity, seeking refuge. In addition, there were some 200 Christian monks who resided in the church. Israeli forces besieged the Church of the Nativity (located over the birthplace cave of Jesus) in Bethlehem, for 39 days, from April 2, 2002 (Muharram 19, 1423 Hijri) (Nisan 20, 5762 Jewish) till May 10, 2002 (Safar 27 (or 28), 1423 Hijri) (Iyar 28, 5762 Jewish). During the siege, Israeli army snipers, from their rooftop positions surrounding the Church, killed seven Palestinians who were in the
Church. After 39 days of siege, an agreement was reached, according to which the Palestinian militants surrendered and were exiled to Europe and the Gaza Strip. Palestinians had last sought refuge in the Church of the Nativity during Israel’s capture of the West Bank in June 1967. During the same Israeli military operation, Israeli Forces attacked Jenin refugee camp, inhabited by 16,000 Palestinians in Jenin, in the West Bank and a major battle broke out starting from April 3, 2002 (Muharram 20, 1423 Hijri). On April 11, 2002, Palestinian militants began to surrender. Israeli troops began withdrawing from the camp on April 18, 2002 (Safar 5, 1423 Hijri) (Iyar 6, 5762 Jewish). British forensic expert, Professor Derrick Pounder, part of Amnesty International team, who gained access to Jenin said that evidence pointed to a massacre committed by Israeli forces. United Nations special envoy, Terje Roed-Larsen, who visited the Jenin refugee camp, described the devastation as "horrific beyond belief". The camp was heavily damaged by Israeli bombardment and airplane missiles. Then, Israeli forces levelled with bulldozers hundreds of Palestinian homes in the camp completely after the end of the battle.

At 7:15 a.m. on Wednesday, June 5, 2002 (Rabi Awwal 24 (or 25), 1423 Hijri) (Sivan 25, 5762 Jewish), a Palestinian man rammed a car rigged with explosives into a public bus in northern Israeli town of Megiddo, killing 17 passengers, including at least 13 Israeli soldiers. Megiddo is the location of the great battle in the End Times referred to in the Bible as Battle of ArMageddon. Megiddo is the site of a prison where Israel imprisons thousands of Palestinian activists and militants. The bomber was from the West Bank town of Jenin and belonged to Islamic Jihad which claimed responsibility for the attack. Islamic Jihad announced that it planned the attack to coincide with the 35th anniversary of the beginning of 1967 war in which Israel captured the West Bank (including the Old City of Jerusalem), Gaza Strip and Golan Heights. In retaliation for the bus attack, Israel launched a tank and helicopter assault on the town of Jenin. Then, Israel attacked the Headquarters of the Palestinian Authority in Ramallah (10 miles north of Jerusalem) on June 6, 2002 (Rabi Awwal 25 (or 26), 1423 Hijri) (Sivan 26, 5762 Jewish). The Headquarters was already damaged due to an Israeli military offensive that began March 29, 2002 (Muharram 16, 1423 Hijri) (Nisan 16, 5762 Jewish) during which Israeli tanks and troops besieged the Headquarters, prohibiting Yasir Arafat from leaving. After blowing up with explosives some buildings, shelling others, and putting a big hole in a wall of the bedroom of Yasir Arafat, the Israelis started withdrawing. In all, several buildings belonging to Palestinian national security forces and intelligence, in addition to a jail were destroyed, or severely damaged. A little while after the withdrawal of the Israelis, Yasir Arafat, who remained in the Headquarters during the Israeli attack, emerged from the Headquarters surrounded by security guards, flashing the victory sign in defiance.

Prophet Mohammad (p) used to go to Cave Hira, near Mecca, and stay there the whole month of Ramadan, for a period of 3 years till the beginning of revelation of the Quran in the third year.

After the beginning of revelation of the Quran, the period during which Prophet Mohammad (p) started inviting people to Islam secretly was 3 years. Prophet Mohammad (p) and his early companions used to have secret meetings in Mecca at the House of Al-Arqam, son of Abi Al-Arqam, who was 16 years old when he became a Muslim. Abbasi Caliph the Mahdi bought this house and gave to his wife, Al-Khaizaran, mother of his two sons who became later on Caliphs: Al-Hadi and Harun Al-Rasheed. Later on, she donated it for the expansion of Al-Haram Mosque in Mecca.

The U.S.-led invasion of Iraq started with air-strikes around 5:30 a.m. local time in Iraq (2:30 a.m. U.T.C.) on Wednesday, March 20, 2003 (Muharram 16, 1424 Hijri) (Adar II 16, 5763 Jewish) (2452,718.5th Julian Day). March 20 is March Equinox day, beginning of the Spring in the Northern Hemisphere and beginning of the Autumn in the Southern Hemisphere. The attack on Baghdad started on April 5, 2003 (Safar 2, 1424 Hijri) (2452,734.5th Julian Day) and Baghdad was conquered by U.S. forces on April 9, 2003 (Safar 6, 1424 Hijri) (Nisan 7, 5763 Jewish) (2452,738.5th Julian Day).

On Tuesday, September 21, 2004 (Shaban 6, 1425 Hijri) (Tishri 6, 5765 Jewish) (2453,269.5th Julian Day), construction of Burj (Tower) of Khalifa (Caliph) in Dubai started, which initially was called Burj Dubai. Since the completion of its construction till the present time, it remains not only the World’s tallest building, but also the tallest man-made structure ever built at 829.8 meters (2,722 ft) high and 163 floors. The date of the opening ceremony, January 4, 2010 (Muharram 17, 1431 Hijri) (2455,200.5th Julian Day), was chosen because January 4 is the anniversary of the accession to the throne of Sheikh Mohammad, the Ruler of Dubai, after his brother's death on January 4, 2006.

On Wednesday, February 11, 2004 (Zu Al-Hijja 19, 1424 Hijri) (Shevat 19, 5764 Jewish), the eastern wall of the Al-Aqsa Mosque compound was damaged by an earthquake. The damage threatens to
topple sections of the wall into the area known as Solomon's Stables. On **February 14, 2004**, 3 days after the earthquake, a **winter storm** destroyed the stone walkway leading from the Western Wall plaza to the Maghariba Gate in Al-Aqsa Mosque compound. An **800 year-old wall** holding back part of the hill jutting out from the Western Wall leading up to the Maghariba Gate partially collapsed. Muslim officials attributed the collapse to Israeli excavation work in the area. The Maghariba Gate became unsafe and in danger of collapse. So, the Israel Antiquities Authority started work on the construction of a temporary wooden pedestrian pathway to the Temple Mount in **February 2007**.

**Yasir Arafat**, following a meal, became very ill with nausea, vomiting, and abdominal pain on **October 12, 2004** (Shaban 27, 1425 Hijri). He arrived to Paris, France, for medical treatment at the Percy Military Hospital on **October 29, 2004**. He fell into a coma on **November 4, 2004**. He died in France on **November 11, 2004** (Ramadan 27, 1425 Hijri) (2453, 320.5th Julian day). He was born on **August 24 (or 4), 1929** (Rabi Awwal 18 (or Safar 27), 1348 Hijri).

At 00:58:53 UTC on **December 26, 2004** (Zu Al-Qada 14, 1425 Hijri), the **2004 Indian Ocean earthquake** occurred, with an epicentre off the west coast of Sumatra, Indonesia. The event is known by the scientific community as the **Sumatra–Andaman earthquake**. This under-sea mega-thrust earthquake (measuring 9.1 on Richter Scale) was caused when the Indian Plate was subducted by the Burma Plate and triggered a series of devastating **tsunamis** along the coasts of most landmasses bordering the Indian Ocean, killing **230,000 people** in **14 countries**, and inundating coastal communities with waves up to 30 metres high. It was one of the deadliest natural disasters in recorded history. **Indonesia** was the hardest-hit country, followed by **Sri Lanka, India, and Thailand**. In Indonesia, **Aceh province** was the most devastated region struck by tsunami.

**Pope John Paul II** died on Saturday at 9:37 p.m. Rome Time, on **April 2, 2005** (Safar 21 (or 22), 1426 Hijri) (Adar II 22, 5765 Jewish) (2453,462.5\(^{th}\) Julian Day), meaning eve of April 3, 2005 (Safar 22 (or 23), 1426 Hijri). **Pope John Paul II** was buried in the grotto beneath Saint Peter’s Basilica on **April 8, 2005** (Safar 27 (or 28), 1426 Hijri) (Adar II 28, 5765 Jewish).

On **April 27 – 29, 2005** (Rabi Awwal 18 - 20, 1426 Hijri) (Nisan 18 - 20, 5765 Jewish), Russian President Vladimir Putin became the first Russian President to visit Israel. He met Israeli Prime Minister Ariel Sharon. He also visited the West Bank, met Palestinian leader Mahmoud Abbas, and laid a wreath at the grave of Palestinian leader Yasser Arafat. On **April 27, 2005**, Putin made a brief, late-night visit to the **Church of the Holy Sepulcher** in the Old City of Jerusalem, where Christians believe Jesus was buried and was resurrected. Then, he stopped at the Western Wall, the Wailing Wall of the Jews.

On **September 29, 2000** (Jumada Thania 29, 1421 Hijri) (Elul 29, 5760 Jewish) (2451,816.5\(^{th}\) Julian Day), the day after **Ariel Sharon’s visit** to the Aqsa Mosque, the **Second Intifada (uprising)** of the Palestinians started. The second intifada led to Israel’s dis-engagement plan by unilateral withdrawal from the Gaza Strip to be proposed on **December 18, 2003** (Shawwal 23, 1424 Hijri) (Kislev 23, 5764 Jewish), by Prime Minister Ariel Sharon in a policy address to the annual Herzylia Conference. On **June 6, 2004** (Rabi Thani 17, 1425 Hijri), the Israeli government headed by Prime Minister Ariel Sharon approved a unilateral withdrawal from the Gaza Strip. On **February 16, 2005** (Muharram 7, 1426 Hijri), the Knesset finalized and approved the plan. The implementation of the plan started on after midnight of **August 14, 2005** (Av 9, 5765 Jewish) (Rajab 9, 1426 Hijri), when tens of thousands of Israeli troops started to oversee the evacuation of the settlers from 21 Jewish settlements in Gaza and four smaller settlements in the West Bank. The Jerusalem High Court, in response to a settlers' petition to block the government's destruction of the synagogues, gave the go-ahead to the Israeli government. However, Sharon decided not to proceed with their demolition. On Sunday, **September 11, 2005**, Israeli cabinet declared a formal end to military rule, ending Israel’s 38-year-long military presence in Gaza. However, the **Israeli cabinet** voted to keep the more than 20 Jewish synagogues intact after rabbis said it was forbidden to demolish them. This enabled the evacuation to proceed slightly ahead of schedule. Palestinian officials had urged Israel to demolish the synagogues, given the Palestinian Authority’s concern that it will not be able to protect the synagogues. On **September 11, 2005** (Shaban 7, 1426 Hijri) (Elul 7, 5765 Jewish) (2453,624.5\(^{th}\) Julian Day), a ceremony was held when the last Israeli flag was lowered in the Israeli Army's Gaza Strip headquarters. Since the completion of its construction till the present time, it remains not only the World’s tallest building, but also the tallest man-made structure ever built at 829.8 meters (2,722 ft) high and 163 floors. The date of the opening ceremony, January 4, 2010 (Muharram 17, 1431 Hijri) (Tevet 18, 5770 Jewish) (2455, 200.5 Julian Day), was chosen because January 4 is the anniversary of the accession to the throne of Sheikh Mohammad, the Ruler of Dubai, after his brother's death on January 4, 2006.

The sinkhole occurred for a combination of reasons, including Tropical Storm Agatha, the Pacaya Volcano eruption, and leakage from sewer pipes. Guatemala City also experienced a sink hole on February 23, 2007 (Safar 5, 1428 Hijri).

In addition to the Fairmont Hotel which consists of 29 floors with 858 rooms and suites, the Mecca Clock Royal Tower has five ‘Royal’ floors and luxury apartments on floors 30 to 52. The top distinctive feature of the building is the Clock (more than 40 meters (23 feet) in diameter), whose four facades are visible from 25 kilometers (16 miles) away. Mecca Clock is more than five times larger than Big Ben Clock in London. It announces daily prayers through amplifiers, reaching a radius of 7 kilometers. The Clock's four faces are covered with 98 million pieces of glass mosaics and are illuminated by around two million LED lights. The clock itself is made by the German clock manufacturer Perrot. A 23-meter high spire topped by a Crescent, made of fibreglass-backed mosaic gold is mounted at the top of the Clock, making the total height of the tower to the highest tip of the crescent reach 601 meters (1,972 feet). Elevators take visitors up to an observation deck/balcony at the base of the clock, just beneath the clock facades. The Tower houses a lunar observatory center which can be used to sight the moon to determine the beginning of the lunar months of the Hijri Calendar. In addition, this tower has a museum for Islamic icons and objects of art. Mecca Clock Royal Tower is the tallest building of the multi-billion-dollar Abraj Al-Bait (Towers of the House) Complex which consists of 7 buildings. The seven towers of the complex rest on a 115 meter-high podium made up of 15 floors of retail stores. That group is led by Muhsin Al-Fadhli, who is believed to have been close to Osama bin Laden. Khorasan Group has reportedly been working with bomb-makers and trying to recruit Americans and Europeans as a means of acquiring passports. The new campaign of airstrikes against targets in Syria and Iraq is far larger than any of the strikes conducted against ISIS since the beginning of the airstrikes in Iraq on August 8, 2014, signaling the start of a new phase in the conflict. By October 2014, the coalition against ISIS included countries such as Saudi Arabia, United Arab Emirates, Bahrain, Jordan, Morocco, and Turkey, in addition to Britain, France, Germany, Netherlands, Canada, Australia, etc.

The one who made, for you, the Ard (Earth or Land) as a cradle (verse 53 of Sura 20): \[(741 + 103 + 90 + 1032) + 49 (or 50) = 1966 + 49 (or 50) = 2015 \text{ (or 2016)}\]

For it. When the Promise of the End Times comes, they shall make your faces look bad (or ruin your faces) and (verse 7 of Sura 17): \[116 + 782 + 5 + 80 + 838 (or 837) + 108 (or 107) + 80 + 6 = 2015 \text{ (2013 or 2014)}\]

You are his Messenger and Allah bears witness that the hypocrites are liars. (verse 1 of Sura 63): 2015 \text{ (2013 or 2014)}

So, they claimed he was a liar. So, We saved him and those with him in (verse 64 of Sura 7): \[813 + 200 (or 199) + 6 + 791 + 115] + 90 = 1925 + 90 = 2015 \text{ (or 2014)}\]

To warn a people whom has never come to them (verse 3 of Sura 32): 2015

unto you a Messenger, as witness upon you, like we sent, to Pharaoh, a Messenger (verse 15 of Sura 73): \[101 + [297 + 309 (or 310) + 170 + 61 + 342 + 32 + 406 + 297] = 101 + 1914 (or 1915) = 2015 \text{ (or 2016)}\]

So, he fills the Earth with Equity and Justice like it was filled: 2015 \text{ (This is part of a Hadith about the Mahdi.)}

When a Messenger from Allah, confirming what they have, Fareeq (party or group) of those who have been given the Book casted away the Book of Allah behind their backs, as if (verse 101 of Sura 2): [71 + 50 + 296 + 90 + 124 + 67 (or 66) + 234 + 71 + 155 + 752 + 390] + [90 + 791 + 413 (or 414) + 453 + 422 + 66 + 208 + 1156 + 116] = 2300 (or 2299)

The Rahiim (Merciful). Y.S. and the wise Quran. You are one of the Messengers, on a straight path. It is a Tanzeel (Brought-down Revelation) from the Dear, the Merciful, to you warn a people whose fathers were not warned (verse 1 - 6 of Sura 36): (289 + 70 + 6 + 383 + 109 + 71 + 120) + (421 + 110 + 299 + 650 + 497 + 125 + 289 + 1380 + 147) + (41 + 951 + 57) = 1048 + (3918 + 1049) = 1048 + 4967 = 7015 (or 7016)

Y.S. and the wise Quran. You are one of the Messengers, on a straight path. It is a Tanzeel (Brought-down Revelation) from the Dear, the Merciful, to you warn a people whose fathers were not warned so they are Ghafiloon (inattentive, unaware, or heedless) (verse 1 - 6 of Sura 36): 7015 (or 7016)

Your Lord who created. He created the human from Alaq. Recite and your Lord, the Akram (Most Honorable) who taught by the pen. He taught the human what he did not know. No, the human may transgress. When he sees him (verse 1 - 7 of Sura 96): 222 + 741 + 730 + 730 + 192 (or 193) + 90 + 200 + 302 + 6 + 222 + 292 + 741 + 140 + 203 + 140 + 192 (or 193) + 41 + 70 + 150 + 51 + 51 + 193 (or 192) + 1059 + 51 + 206 = 7015 (7016 or 7017)

The Bayina (Evidence) came to them, a Messenger from Allah, reciting purified scriptures, in which there are valuable books. And those who have been given the Book have not split up, except after the Bayina (Evidence) came to them (verse 1 – 4 of Sura 98): [454 (or 453) + 6 + 651 + 250 + 418 + 856 + 98 + 296 + 90 + 66 + 447 + 179 + 259 + 96 + 422 + 155 + 6 + 41 + 780 + 791 + 414 + 453 + 32 + 90 + 76 + 41 + 450] + 98 = 7917 (or 7916) + 98 = 8015 (or 8014)

O David! We have made you a Caliph in the Ard (Earth or Land). So, rule (or judge) between (or among) the people in justice. And do not follow the Hawa (whim, desire, urge) because it makes you stray away from the Path of Allah. Those who stay away from the Path of Allah,
there is, for them, a severe torment, for (verse 26 of Sura 38):  
\[(11 + 15 + 52 + 173 + 725 + 90 + 1032) + [148 (or 149) + 62 + 142 + 141 + 6 + 31 + 872 + 52 + 940 + 120 + 102 + 66 + 75 + 773 + 318 + 43] = 2098 + 7917 (or 7918) = 8015 (or 8016)\]

And so that those who have sickness in their heart and the unbelievers say: what has Allah intended by this as a metaphor? This is how Allah misguides whomever he wishes and guides whomever he wishes. And no one knows the Junud (recruits, soldiers, servants) of Allah except him (verse 31 of Sura 74):  
\[6 + 176 + 791 + 90 + 183 + 1040 + 6 + 388 + 742 + 206 + 67 (or 66) + 708 + 571 + 770 (or 771) + 840 + 67 (or 66) + 90 + 312 + 6 + 29 + 90 + 312 + 6 + 41 + 150 + 63 + 222 + 32 + 11 = 8015 (8017 or 8016)\]

This is a mercy from my Lord. When Promise of my Lord comes, he shall turn it into ruins and thus Promise of my Lord shall be fulfilled. And we left some of them on that Day mingle with others and the Trumpet is blown, so we gather them, all together, and we display (verse 98 – 100 of Sura 18):  
\[(706 + 253 + 90) + (212 + 782 + 5) + (80 + 212 + 108 + 26 + 6 + 71 + 80 + 212 + 109 + 6 + 671 + 917 + 766 + 59 + 90 + 872 + 6 + 730 + 90 + 327 + 288 + 114 + 6 + 1121) = 1049 + (999 + 6967) = 1049 + 7966 = 9015\]

So that those who have been given the Book become certain and those who have believed grow in faith and those who have been given the Book and the Believers do not have doubt (verse 31 of Sura 74):  
\[9015 (9017 or 9016)\]

Pope Francis is expected to arrive to the U.S., for the first time, on September 22, 2015. In the morning of September 23, 2015, after Pope Francis’ meeting with Barack Obama at the White House, he will celebrate a Mass at the Basilica of the National Shrine of the Immaculate Conception in Washington, D.C. While he is in Washington, D.C., he will deliver a speech at a joint-meeting of Congress, the Senate and the House of Representatives. In the afternoon of September 24, 2015, Pope Francis will leave Washington, D.C., heading to New York City (N.Y.C.) where he is expected to deliver a speech at U.N. General Assembly in the morning of September 25 and visit St. Patrick’s Cathedral in N.Y.C. He may also visit Ground Zero (the location of the former World Trade Center). On September 26 – 27, 2015, he will be in Philadelphia to attend the 8th World Meeting of Families, an international annual event organized by the Catholic Church which will be held in the U.S. for the first time. He may celebrate an open-air Mass in the courtyard of the renowned Philadelphia Museum of Art, overlooking the scenic, mile-long Benjamin Franklin Parkway Boulevard that starts from the City Hall and ends at the Museum of Art, where a crowd of more than 2 million people may attend.

On Friday, March 13, 2015 (Jumada Ula 22, 1436 Hijri), the second anniversary of his pontificate, in a surprise move, while celebrating a penitential service in St. Peter’s Basilica, Pope Francis announced an Extraordinary Holy Year (Jubilee Year), and called it Holy Year of Mercy. He entrusted this Holy Year to Mary, Mother of Mercy. This Holy Year will start on December 8, 2015 (Safar 26, 1437 Hijri) (Kislev 26, 5776 Jewish), to commemorate: (a) the Feast of the Immaculate Conception, (b) the 50th anniversary of the closing of the Second Vatican Council (21st Ecumenical Council) on December 8, 1965 (Shaban 14, 1385 Hijri) (Kislev 14, 5726 Jewish), and (c) the 146th anniversary of the opening of the First Vatican Council (21st Ecumenical Council) on December 8, 1869. This Holy Year of Mercy will end on November 20, 2016, on the Feast of Christ the King. In Christianity, the tradition dates to year 1300 AD, when Pope Boniface VIII convoked a Holy Year, following which ordinary jubilee holy years have generally been celebrated every 25 or 50 years, in addition to extraordinary jubilee holy years on as needed basis. The last ordinary Holy Year was in year 2000 (from Christmas Eve, December 24, 1999 to Epiphany, January 6, 2001) and it drew some 25 million Catholic pilgrims to the Vatican and Rome. The last two Extraordinary Holy Years started on January 6, 1933 and on March 25, 1983 to mark the passing of 1900 years and 1,950 years from the death of Jesus. A Catholic Holy Year involves special celebrations and pilgrimages (usually to the Vatican), strong calls for conversion and repentance, and the offer of special opportunities to experience God’s grace through the sacraments, especially confession. On December 8, 2015, Pope
Francis will open the Holy Door of St. Peter’s Basilica, which is normally bricked up, after a 9:30 a.m. Mass. The ceremony shall serve as the beginning of a worldwide celebration, “24 Hours for the Lord.” The last time the Holy Door was opened was by Pope John Paul II on December 24, 1999, the beginning of the Holy Year. At the request of Pope Francis, Catholic churches will remain open Friday and Saturday to offer the Sacrament of Reconciliation (also known as confession) to the faithful.

On Friday June 26, 2015 (Ramadan 9, 1436 Hijri), the Vatican signed a treaty with the State of Palestine, after officially recognizing Palestine as a state in February 2013, following a November 2012 recognition vote by the U.N. General Assembly.

Five catastrophes happened during the Hajj (Pilgrimage) season in Mecca in 2015:

(a) A construction crane (190 meters high) fell onto the Masjid Al-Haram (the mosque in which the Kaba is located) on Friday, September 11, 2015 (Zu Al-Qada 27, 1436 Hijri) (Elul 27, 5775 Jewish), around 5:30 pm. About 118 people died and 394 were injured. The crane fell into the east side of the mosque, with its boom crashing through the roof. One witness reported that the crane fell on the third floor above Al-Safa and Al-Marwah. This incident in Mecca’s considered the deadliest crane collapse accident in modern history, with the previous most deadly incident being the collapse of a construction crane in New York City on March 15, 2008 (Rabi Awwal 7, 1429 Hijri), killing seven people.

(b) On Thursday, September 17, 2015 (Zu Al-Hijja 3, 1436 Hijri) (Tishri 4, 5776 Jewish), a fire broke out in a hotel in Mecca’s Al-Azzia District, resulting in the injury of two people and evacuation of 1000 people who were staying in the hotel.

(c) On Monday, September 21, 2015 (Zu Al-Hijja 7, 1436 Hijri) (Tishri 8, 5776 Jewish), around 2:45 a.m., a fire broke out in another hotel in Mecca, resulting in the injury of four people and evacuation of 1500 people who were staying in the hotel.

(d) On Wednesday, September 23, 2015 (Day of pilgrims’ standing Mount Arafat, Zu Al-Hijja 9, 1436 Hijri) (Tishri 10, 5776 Jewish), the door of a special metro train that carries the Muslim pilgrims from Mecca to Mount Arafat malfunctioned, trapping over 200 pilgrims who fainted or suffered fatigue, at least 5 of them had to hospitalized. The rush of pilgrims to board the train on the Day of Arafat caused the automatic system of the train door of one car of the train to malfunction, which left the pilgrims stranded for almost 30 minutes.

(e) On Thursday, September 24, 2015 [First day of Eid (Feast) of the Adha (Sacrifice), Zu Al-Hijja 10, 1436 Hijri] (Tishri 11, 5776 Jewish), around 9 a.m., a stampede happened in Mina (Tent City for Muslim pilgrims near Mecca) at the intersection of streets 204 and 223, leading to the Jamarat Bridge (where stoning of the Devil happens), causing the death of about 2500 pilgrims, due to suffocation or being crushed. This is considered to be the deadliest stampede in the pilgrimage season in Mecca in history.

which we have blessed its surroundings to show him from our signs. He is the All-Seer, All-Hearer. And we brought to Moses the Book and made it (or him) a guidance to Bani (Children) of Israel. Do not take, other than me, as a patron. The progeny of the ones whom we carried with Noah. He was a servant (verse 1 – 3 of Sura 17): [741 + 273 (or 274) + 49 + 295 + 90 + 463 (or 462) + 56] + [11 + 211 + 333 + 6 + 463 (or 462) + 116 + 453 + 6 + 159 (or 158) + 19 + 92 + 302 + 32 + 2107 + 90 + 70 + 67 + 915 + 90 + 129 + 110 + 64 + 56 + 71 + 77 ] = 1967 (or 1966) + 6049 = 8016 (8014 or 8015) (equivalent to 2016)

And those who have been given the Book have not split up, except after the Bayina (Evidence) came to them (verse 1 – 4 of Sura 98): [454 (or 453) + 6 + 651 + 250 + 418 + 856 + 98 + 296 + 90 + 67 (or 66) + 447 + 179 + 259 + 96 + 422 + 155 + 6 + 41 + 780 + 791 + 414 + 453 + 32 + 90 + 76 + 41 + 450] + 98 = 7918 (7916 or 7917) + 98 = 8016 (8014 or 8015)

So, rule (or judge) between (or among) the people in justice. And do not follow the Hawa (whim, desire, urge) because it makes you stray away from the Path of Allah. Those who stay away from the Path of Allah, there is, for them, severe torment, for (verse 26 of Sura 38): (11 + 15 + 52 + 173 + 725 + 90 + 1032) + [ 149 (or 148) + 62 + 142 + 141 + 6 + 31 + 872 + 52 + 940 + 120 + 102 + 66 + 51 + 791 + 896 + 120 + 102 + 66 + 75 + 773 + 318 + 43 ] = 2098 + 7918 (or 7917) = 8016 (8013, 8014 or 8015)

And so that those who have sickness in their heart and the unbelievers say: what has Allah intended by this as a metaphor? This is how Allah misguides whomever he wishes and guides whomever he wishes. And no one knows the Junud (recruits, soldiers, servants) of Allah except him (verse 31 of Sura 74): 6 + 176 + 791 + 90 + 183 + 1040 + 6 + 388 + 742 + 206 + 67 (or 66) + 708 + 571 + 771 (or 770) + 840 + 67 (or 66) + 90 + 312 + 6 + 29 + 90 + 312 + 6 + 41 + 150 + 63 + 222 + 32 + 11 = 8016 (8013, 8014 or 8015)

And we left some of them on that Day mingle with others and the Trumpet is blown, so we gather them, all together, and we display (verse 98 – 100 of Sura 18): (706 + 253 + 90) + (212 + 782 + 5) + [80 + 212 + 108 + 26 + 6 + 71 + 80
This is a mercy from my Lord. When Promise of my Lord comes, he shall turn it into ruins and thus Promise of my Lord shall be fulfilled. And we left some of them on that Day mingle with others and the Trumpet is blown, so we gather them, all together, and we display the photos of them.

And we have not made People of the Fire except as Angels and we have not made their Idda (number or period) except as a Fitna (trial or test) for those who have disbelieved. So that those who have been given the Book become certain and those who have believed grow in faith and those who have been given the Book and the Believers do not have doubt.

The Mosques are for Allah, so do not Tadu (invoke, call or pray to) along with Allah any thing. And that when a worshipper of Allah arose Yaduh (invoking, calling or praying to) him, they were about to attack him. Say: I Adu (invoke, call or pray to) my Lord and do not worship any thing along with him. Say: I do not have the capacity for harm or guidance. Say: No one will protect me from Allah and I will not find a refuge in other than Him, except a proclamation from Allah and his messages. And whoever disobeys Allah and his Messenger, there is...
you except as a Mubashir (Bearer of good news) and a Warner. And a Quran we have spaced it so that you recite to the people (verse 103 – 106 of Sura 17):

و قضينا إلى بني إسرائيل في الكتاب لفسد في الأرض مرتين وتعلن علوا كبيرا فإذا جاء وعد أولاهما بعثنا عليكم عبادا لنا أولي باس شديد فجاسوا خلال الديار وكان وعد مفعولا ثم رددنا لكم الكره عليهم وأمددكم بأموال و بين وجعلتكم أكثر نفيرا أن أحسنتم أحسنت لنفسكم وإن أسامتم و أنتم إن و لأنفسكم أحسنتم

And we have decreed unto Bani (Children) of Israel in the Book that you will corrupt in the Ard (Earth or Land) twice and you will rise to a great height. When Promise of the first of them comes, we send, against you, servants of ours of great might. So, they plunder throughout the homelands and thus it will be a Promise fulfilled. Then, we gave you the opportunity to attack them and we supported you with monies and sons (males) and we let you be more in number of individuals. If you do well, you do well to yourselves. And if you do badly, (verse 4 – 7 of Sura 17): (6 + 961) + [ 41 + 62 + 303 + 90 + 454 + 624 + 90 + 1032 + 700 + 6 + 580 + 107 + 233 + 782 + 5 + 80 + 84 + 623 + 170 + 78 + 81 + 47 + 63 + 318 + 151 + 661 + 246 + 6 + 71 + 81 + 227 + 540 + 259 + 90 + 256 + 155 + 6 + 159 + 80 (or 79) + 6 + 112 + 6 + 213 + 721 + 341 + 51 + 559 + 559 + 281 + 6 + 51 + 502 ] = 967 + 13049 (or 13048) = 14016 (or 14015) (equivalent to 2016)

The Muezzin (caller to prayer) recited the Azan (call to prayer) from inside Hagia Sophia (known in Turkish as Aya Sofya) in Istanbul (Constantinople), Turkey, for the morning prayer on Saturday, July 2, 2016 (Ramadan 27, 1437 Hijri), following Lailat (Night or Eve) of the Qadr. This call to prayer was broadcast from the minarets of Aya Sophia by loud-speakers. This is the first time in 85 years since Hagia (Aya) Sophia Mosque was converted from a mosque into a museum in 1935 under Mustafa Kemal Atatürk, the Republic of Turkey's first president. Although the prayer call had been done from Hagia Sophia's minarets for the previous four years, the muezzin had always chanted the azan from a prayer room in the museum grounds, rather than from inside the former mosque. Hagia (Aya) Sophia was originally built as an Orthodox Christian basilica during the reign of Byzantine Emperor Justinian I in 537. It was converted to a mosque following Ottoman Sultan Mehmet II's conquest of Constantinople in 1453. In recent years, there have been calls in Turkey to convert Aya Sophia back into a mosque.

On February 12, 2016 (Jumada Ula 3, 1437 Hijri), nearly 1,000 years after the Eastern and Western branches of Christianity split apart, the meeting between Pope Francis and Russian Orthodox Patriarch Kirill at an airport terminal in Cuba was the first ever between a Roman Catholic pope and a Russian Orthodox patriarch.

And we have not sent you except as Mubashir (bearer of good news) and a Nazeer (warner). And a Quran Faraqnahu (we spaced its revelation) so that you recite it unto the People unhurriedly and we descended it in a descent (verse 103 – 106 of Sura 17):

From the beginning of Sura 55 (including the Basmala) till the end of verse 6 of Sura 55, there are 17 words.

It is worth noting that Ali served as a Caliph after the death of Othman, the third Caliph. Similarly, the Mahdi is going to serve as Caliph in the End Times after the last Caliph of the Ottoman Empire who served till 1924.]

Caliphate of the Mahdi, son of Al-Hussein: 716 (or 715) + (90 + 53 + 159) = 716 (or 715) + 302 = 1018 (or 1017) (This seems to indicate that the Mahdi is likely to be a son of Al-Hussein, one of the two sons of Fatima and Ali)

The following illustrates how the name of Prophet Mohammad (p) is numerically connected to number 19.

Number 92 is the 67th Composite. Number 92 is the numerical value of:

محمد  Mohammad: 92

Number 67 is the 19th Prime Number.

The first verses of the Quran revealed to Prophet Mohammad (p), verses 1 - 5 of Sura 96, consist of: $1 + 19 = 20$ words.

Sura 96, first Sura revealed, consists of 19 verses.

Sura 96, first Sura revealed, is the 19th Sura from the end of the Quran.

The last Sura revealed, Sura 110, consists of 19 words.

Verse 1 of the last Sura revealed, Sura 110, consists of 19 letters.
From Sura 9 (the only Sura that does not start with a Basmalah) to Sura 27 (which contains 2 Basmalahs, instead of one), there are **19 Suras**.

There are **19 Suras** starting with the luminous letters from Sura of Mary (Sura 19) till the end of the Quran. There are also **19 Suras** starting with the luminous letters from the beginning of the Quran till Sura Şâd (Sura 38). Number 38 = 19 + 19

Sura of Maryam (Mary) is Sura 19. If the number 19 is added to the numerical value of the word "Maryam" which is 290, the result is: 290 + 19 = 309 which is equal to the number of lunar years People of the Cave remained sleeping as indicated in verse 25 of Sura of the Kahf (Cave) (Sura 18) which immediately precedes Sura of Maryam (Mary) (Sura 19).

There are **only 19 Suras** in the Quran in which the word “Book” or “the Book”, is mentioned, while meeting all of the following criteria: (a) it is mentioned in reference to the Quran, (b) is mentioned in one of the first 3 verses of the Sura, (c) the word “Quran” or “the Quran” is not mentioned in the same verse. These 19 Suras are: (1) Sura 2, (2) Sura 3, (3) Sura 7, (4) Sura 10, (5) Sura 11, (6) Sura 12, (7) Sura 13, (8) Sura 14, (9) Sura 18, (10) Sura 26, (11) Sura 28, (12) Sura 31, (13) Sura 32, (14) Sura 39, (15) Sura 40, (16) Sura 43, (17) Sura 44, (18) Sura 45, (19) Sura 46.

The Quran consists of **114 Suras** (114 = 6 x 19)

Numerical value of the Maseekh (False Messiah) is 741 = (3 x 13) x 19 = 39 x 19

1900 = 100 x 19

1919 = 101 x 19

Year 2014 (year in which ISIS’s Islamic Caliphate was announced) = 106 x 19

19 x 9 = 171

Ariel Sharon (the Israeli opposition leader) entered the Aqsa Mosque compound, accompanied by over 1,000 security guards, at 7:30 AM on September 28, 2000 (Jumada Thania 28, 1421 Hijri) (Elul 28, 5760 Jewish) (2451,815.5th Julian Day). From year 2000 (1421 Hijri) till year 2019 (1440 Hijri) (possible beginning of the End Times), there are **19 years**.

Jacques de Molay became the 23rd and last Grand Master of the Order (Society) of Knights of Templars, from April 20, 1292 AD (Jumada Ula 1, 691 Hijri) (Iyar 2, 5052 Jewish) until it was dissolved in 1307 AD. He was later burned at stake on March 18, 1314 AD (Zu Al-Qada 29, 713 Hijri) (Adar 29, 5074 Jewish).

On July 23, 1999 (Rabi Thani 9, 1420 Hijri) (Av 10, 5759 Jewish Calendar) (2451,382.5th Julian Day), around 4:30 pm, King Al-Hassan II, the 22nd King of Morocco, died. On the same day, his son Mohammad was offered bay’a (pledge of allegiance) as Prince of the Believers and he was officially crowned as King Mohammad VI, the 23rd king of the Alawite dynasty, on July 30, 1999. Note that the last Ottoman Sultan was also called Mohammad VI.

Napoleon’s French forces marched to Rome, entered it unopposed on Saturday, February 10, 1798 (Shaban 24 (or 23), 1212 Hijri) (Shevat 24, 5558 Jewish) (2377,806.5th Julian Day), proclaimed a Roman Republic on February 15, 1798 (Shaban 29, 1212 Hijri) (Shevat 29, 5558 Jewish), demanded of Pope Pius VI the renunciation of his temporal power, and upon Pope Pius VI’s refusal, he was
taken prisoner. **February 15** was the 23rd anniversary of Pope Pius VI’s election as Pope on **February 15, 1775**.

On **July 22, 1946** (Shaban 23, 1365 Hijri) (Tammuz 23, 5706 Jewish) (2432.023.5th Julian day), the **western part** of the southern wing of King David Hotel in Jerusalem, which was serving as headquarters of the British Mandate, collapsed due to explosives set off by **Irgun**, a Zionist terrorist group led by **Menahim Begin**, who later became Prime Minister of Israel.

Each of **Sura 105, Sura 111, and Sura 113** consists **23 words**.

The **revelation of the Quran** from Allah to Prophet Mohammad (p) lasted about **23 lunar years**, 13 years while Prophet Mohammad (p) was in Mecca and 10 years after Prophet Mohammad (p)’s migration to Medina.

**Sura of the Star** (Sura 53) was the 23rd Sura revealed. **Sura of the Star** consists of **1423 letters**.

The last verse (verse 30) of **Sura 89** is the 6023rd verse of the Quran.

From 1966 to 1989, there are 23 years.

**23 x 3 = 69. Number 69 is the numerical value of:**

- الدجال The Dajjal (Deceiver or Anti-Christ): **69 (69 = 3 x 23)**

The **Council of Constance** was held in Constance, Germany from **November 16, 1414** to **April 22, 1418**. It ended the Papal schism which had resulted from the confusion following the Avignon Papacy, by deposing or accepting the resignation of the remaining papal claimants and **electing Pope Martin V**. The death of Pope Gregory XI’s and the controversial election of his successor, **Pope Urban VI**, resulted in the defection of a number of cardinals and the election of a rival pope based in Avignon in 1378. The schism remained. By 1414, the schism involved not two, but three claimants for the papacy: Gregory 12th in Rome, Benedict 13th in Avignon and John 23rd. The **Council of Pisa** was held as an attempt to end the schism. The Council of Pisa deposed both Gregory 12th and Benedict 13th and elected a new pope **Alexander V** in 1409. Gregory 12th and Benedict 13th ignored this decision however, so that there were now three simultaneous claimants to the Papacy. On **May 25, 1410**, following the death of Pope Alexander V died, Baldassarre Cossa was chosen as pope, adopting the name **Pope John 23rd**. The **Council of Constance** deposed Pope John 23rd on **May 29, 1415** (Rabi Awwal 19, 818 Hijri) and deposed Pope Gregory 12th on **July 4, 1415**. On the other hand, **Benedict 13th** refused to step down, so he was declared a schismatic and excommunicated from the
Catholic Church by the **Council of Constance** on **July 27, 1417.** **Benedict 13th,** who had lived in Perpignan from 1408 to 1417, now fled to the castle of Peniscola, near Tortosa, in the Crown of Aragon. He still considered himself the true Pope. His claim was now only recognized in the Kingdom of Aragon, where he was given protection by King Alfonso V. **Benedict 13th** remained in Peniscola from 1417 until his death on **May 23, 1423.** The day before his death, **Benedict 13th** appointed four cardinals of proven loyalty to ensure the succession of another Pope who would remain faithful to the now beleaguered Avignon line. Three of these cardinals met on **June 10, 1423** and elected Sanchez Muñoz as their new Pope, who adopted the papal name of **Clement VIII.** For a period of two years and nine months, there was no pope and thus, the Council of Constance was the ruling body of the Catholic Church. **Martin V** was elected as pope at the **Council of Constance** on **November 11, 1417** by a conclave consisting of **23 cardinals.**

At the end of the **23rd siege** of Constantinople which began on **April 6, 1453** (Rabi Awwal 26, 857 Hijri) and lasted 53 days, an **Ottoman army,** under the command of the **23-year-old Sultan Mohammad II** conquered Constantinople (capital of the Eastern Roman, Byzantine Empire), on **Tuesday, May 29, 1453** Julian (**June 7, 1453** Gregorian) (Jumada Al-Ula 20, 857 Hijri) (Sivan 21, 5213 Jewish) (2251,914.5th or 2251,915th Julian Day), after 3 years of becoming a Sultan. After conquering Constantinople, **Sultan Mohammad II** became known as **Mohammad the Fatih** (Conqueror).

Al-Hussein son of Ali [Al-Hussein's father is Ali, cousin of Prophet Mohammad (p), and his mother is Fatima daughter of Prophet Mohammad (p)] left Mecca heading to Kufa, Iraq, to accept the offers of allegiance for the Caliphate on Zu Al-Hijja 8, 60 Hijri (September 8 (or 9), 680 Julian) (September 11 (or 12), 680 Gregorian) (Tishri 8 (or 9), 4441 Jewish), thus challenging Yazid son of Muawiya for the Caliphate of all Muslims. Al-Hussein had sent to Kufa his cousin, Muslim son of Aqeel, to check whether these offers were true. Al-Hussein left Mecca after he received a letter from Muslim son of Aqeel confirming that there were thousands of people supporting Al-Hussein, but soon this support vanished after the Governor of Iraq, Ubaid-Allah Ibn Ziad (who was loyal to Yazid son of Muawiya) threatened supporters of Al-Hussein. Muslim son of Aqeel was killed in Kufa on
Zu Al-Hijja 9. The news of the killing of Muslim son of Aqeel did not reach Al-Hussein until much later. On his way to Kufa, Al-Hussein sent a letter to Kufa (which included the date in which he departed from Mecca) with a messenger named Qays bin Mishir bin Khalid Al-Asadi Al-Saidawi who was later captured and ordered to be thrown down to the ground from the roof of the palace of the Governor of Iraq, Ubaid-Allah Ibn Ziad. About a month after departing Mecca, before reaching Kufa, Al-Hussein was killed in Karbala, Iraq, on the 10th day of Muharram, 61 Hijri.

69 AD is the year of the four Roman emperors. In this year, there were four emperors of Rome. Following the death Nero, the last Julio-Claudian emperor, there was no obvious person to inherit the top position so there was violent competition. The four emperors who all ruled for part of 69 AD were: Galba, Otho, Vitellius, and Vespasian. Vespasian survived beyond year's end. With Vespasian, came the second imperial dynasty, the Flavians.

On August 22, a note from the miners was pulled, stating that they were well. On October 13, 2010, they were finally rescued, 69 days (9 weeks + 6 days) after the beginning of the incident.

The Battle of Nitzanim was fought in the kibbutz of Nitzanim, in Southern Palestine, between the Israeli army and the Egyptian Army in the 1948 Arab–Israeli War, on June 7 - 10, 1948. The kibbutz of Nitzanim is located on the coast between Gaza and Yafa and it was surrounded by the Arab towns: Isdud to the North, Majdal to the South, and Julis and Beit Daras to the East. The battle started around midnight of June 6 – 7, 1948 (Rajab 28 – 29, 1367 Hijri) (Iyar 28 - 29, 5708 Jewish), with an Egyptian artillery bombardment of Nitzanim, followed by an Egyptian aerial bombardment and armored and infantry attacks. The main Egyptian attack broke through the Israeli defenses at around 11:00 a.m. on June 7, 1948. The Israelis started retreating. At 4:00 p.m. on June 7, 1948, 105 Israeli fighters, 26 of them injured, surrendered to the Egyptian Army. The Israeli survivors were later displayed in a victory parade in the nearby Arab town, Majdal, after which they were transferred to Cairo. Battle of Nitzanim was the first major Egyptian victory of the war, and one of the few cases of Israeli surrender. On the night of June 7 – 8, 1948, the Israeli forces captured the strategic Hill 69 (located between Nitzanim and Isdud) and carried out an unsuccessful attack against the Arab town of
**Isdud.** On the night of June 9 – 10, 1948, the Israeli forces attempted to re-capture Nitzanim. At dawn, an Israeli platoon managed to break into Nitzanim from the South and capture the "Palace" (an abandoned Arab Palace/Mansion, located at a hill overlooking Nitzanim), but withdrew from Nitzanim after being hit by heavy Egyptian fire. The Egyptian artillery pursued the withdrawing Israelis until the Israelis reached Hill 69. The Egyptians attacked Hill 69. The Israelis suffered heavy casualties, so they withdrew from the Hill, but their withdrawal was disorganized and cost more casualties. The total Israeli death toll in the Battle of Hill 69 was 20 soldiers. So, the Egyptians managed to capture Hill 69 on June 10, 1948. The Egyptians attempted to continue towards Beit Daras and Be’er Tuvia, but met with strong Israeli defense, so at nightfall, the Egyptians withdrew.

Except as a Fitna (Trial or Test) for those who have disbelieved so that those who have been given the Book and those who have believed grow in faith and do not (verse 31 of Sura 74): \(32 + 535 + 820 + 307 + 660 + 791 + 414 + 454 + 6 + 26 + 791 + 99 + 103 + 6 + 31\) = \(4019 + 1056 = 5075\)

Kabditha Thamud disbelieved through its oppression, when their most wicked arose. So, the Messenger of Allah said to them (verse 11 - 12 of Sura 91): \(1122 + [550 + 1023 (or 1024) + 701] + 623 + (408 + 211 + 75 + 296 + 66) = [1122 + 2274 (or 2275) + 623] + 1056 = 4019 (or 4020) + 1056 = 5075 (or 5076)\)

Day of the Deen (Religion or Judgement). You are whom we worship and whom we seek help from. Guide us to the Straight Path, the path of those whom you have given bounties, not (verse 4 – 7 of Sura 1): \(56 + (95 + 32 + 126 + 6 + 32 + 640 + 61 + 330 + 681 + 299 + 791 + 561 + 155 + 1210)\) = \(56 + 5019 = 5075\) (5075 is the 4397th Composite Number)

And so that those who have sickness in their heart and the unbelievers say: what has Allah intended by this as a metaphor? This is how Allah misguides whomever he wishes and guides whomever he wishes. And no one knows the Junud (recruits, soldiers, servants) of Allah except him and it is not (verse 31 of Sura 74): \(6 + 176 + 791 + 90 + 183 + 1040 + 6 + 388 + 742 + 206 + 66 + 708 + 571 + 770 + 840 + 66 + 90 + 312 + 6 + 29 + 90 + 312 + 6 + 41 + 150 + 63 + 222 + 32 + 11 ) + [6 + (41 + 15)] = 8013 + (6 + 56) = 8013 + 62 = 8075

Sura 75 is Sura of the Qiyama (Upheaval, Resurrection, or End Times)

Caliph Al-Walid bin Abd Al-Malik was one of the most prominent Umawi Caliphs who reigned from 705 AD (86 Hijri) till 715 AD (96 Hijri). Historians consider his reign as the apex of Islamic power. In the West, Muslims under the leadership of Tariq bin Ziyad started the conquest of Al-Andalus in 711 AD (93 Hijri). In the East, Muslims’ rule reached as far as the Indus River in India by 712 AD. During his reign, the construction of the Aqsa Mosque was completed in 705 AD, construction of the Umawi Mosque of Damascus was commissioned in 705 AD and finished in 715 AD (96 Hijri).

Caliph Al-Walid bin Abd Al-Malik was one of the most prominent Umawi Caliphs who reigned

from 705 AD (86 Hijri) till 715 AD (97 Hijri).

On Monday, January 28, 1974 (Muharram 4, 1394 Hijri), Israel’s invasion forces lifted the 97- day

siege of Suez City (whose population was 15,000) in Sinai, Egypt, based on a disengagement accord,

negotiated by Henry Kissinger, signed by Israel and Egypt on January 18, 1974. This set free the

20,000 Egyptian soldiers encircled since October 23, 1973 (Ramadan 26, 1393 Hijri) around the end

of 1973 war. This dis-engagement was planned to be completed by February 21, 1974, evacuating all

the occupied Egyptian territories west of Suez canal. By March 5, 1974 (Safar 10, 1394 Hijri),

Egyptian forces were to take control of both banks of Suez canal which had been closed since the

1967 war. However, Israel still held most of Sinai.

Peace it is (verse 1 - 5 of Sura 97): (226 + 41 + 75 + 335) + (75 + 335 + 810 + 90 + 111 + 505) + [487 + 136 (or 137) + 6 + 245 + 96 + 753 + 247 + 90 + 50 + 241] + [130 (or 131) + 15] = 677 + 1926 + 2351 (or 2352) + 145 (or 146) = 5099 (5100 or 5101) (5099 is the 681st Prime Number)

Narrate your vision to your siblings, lest they scheme a plot against you. The Satan is, for the human being, an evident enemy. Like that, your Lord shall choose you and teach you from the interpretation of the narrations and complete his blessing upon you and upon (verse 5 – 6 of Sura 12): (680 + 232 + 110) + (1027 + 131 + 50 + 35 + 51 + 401 + 222 + 80 + 102 + 6 + 770 + 445 + 222 + 6 + 170 + 90 + 447 + 555 + 6 + 450 + 565 + 130 + 6 + 110) = 1022 + 6077 = 7099

If you do well, you do well to yourselves and if you do badly, it is to yourselves. When Promise of the End Times comes, they shall ruin your faces (make your faces look bad) and they shall enter the Mosque, like they entered it the first time and they shall destroy how high they reach, an utter destruction. Perhaps your Lord may have mercy on you. And if you return, we return and we make Jahanam (Hell), for the Disbelievers, an abode (verse 7 - 8 of Sura 17): [51 + 559 + 559 + 281 + 6 + 51 + 502 + 116 + 782 + 5 + 80 + 837 (or 838) + 107 + 80 + 6 ] + 681 +138 + 61 + 645 + 37 + 245 + 6 + 649 + 41 + 107 +1013 + 140 + 262 + 51 + 318 + 6 + 51 + 514 + 125 + 6 + 154 + 98 + 420 + 308) = 4022 (or 4023) +  6077 = 10099 (or 10100)

- As the first Crusade was approaching Jerusalem, an eclipse of the moon on June 5, 1099 was regarded by the Crusaders as a favorable sign from God. The Crusade reached Jerusalem, the main destination of their pilgrimage journey, in the morning, on Tuesday, June 7, 1099 Julian (Rajab 15, 492 Hijri) (Sivan 15, 4859 Jewish). Faced with a seemingly impossible task, the low morale of the Crusaders was raised when a priest, by the name of Peter Desiderius, claimed to have had a divine vision instructing them to fast and then march in a barefoot procession around the city walls, after which the city would fall in nine days, following the Biblical example of Joshua at the siege of Jericho. After fasting for 3 days, on Friday, July 8, 1099, the Crusaders performed the procession, sounding trumpets and chanting as instructed by Desiderius, ending on the Mount of Olives where Peter the Hermit preached to them, while the city's Muslim defenders mocked them. More practical help for the Crusaders had already arrived in the form of six ships that anchored at Jaffa, which had been abandoned by the Muslims. The ships were carrying food, armaments, and supplies needed to build siege engines. Using their newly acquired supplies, the Crusaders, with the aid of Genoese engineers, began building two huge siege towers, catapults and a battering ram. On July 10, 1099 (Shaban 18, 492 Hijri) (Tammuz 18, 4859 Jewish), the two siege towers built by the Crusaders were completed and wheeled into position. For the first time, the Muslim ruler of Jerusalem became concerned, issuing strict orders that he be notified if either tower moved closer to the city. The Crusaders started their assault on Jerusalem on the night of July 13, 1099 Julian (July 19, 1099 Gregorian) at night. The Crusaders fought all day on July 14, 1099 Julian (July 20, 1099 Gregorian) (Shaban 22, 492 Hijri) (Tammuz 22, 4859 Jewish) (2122,661.5th or 2122,662nd Julian Day) without establishing a foothold.
The Crusaders (about 1300 knights and 12,000 soldiers) breached the walls of Jerusalem and conquered Jerusalem on **Friday, July 15, 1099 AD** Julian (July 21, 1099 Gregorian) (Shaban 23, 492 Hijri) (Tammuz 23, 4859 Jewish) (2122,662.5th or 2122,663th Julian Day). The next day, on **July 16, 1099** Julian (July 22, 1099 Gregorian), the Crusaders forced Jews of Jerusalem to gather in the main synagogue and then, the Crusaders set this synagogue on fire. Most of the **inhabitants of Jerusalem (mostly Muslims) were slaughtered** by the Crusaders within **July 15 - 16**. On **July 22, 1099** (Shaban 30 or Ramadan 1, 492 Hijri) (Av 1, 4859 Jewish), Sultan Salah Eddeen Al-Ayubi and King Richard the Lion-hearted of England signed treaty over Jerusalem, at end of the Third Crusade.

**Godfrey de Bouillon** was born on **September 18, 1060** (Shaban 19 (or 20), 452 Hijri) (Tishri 21, 4821 Jewish). He died on **July 18, 1100** (Ramadan 9, 493 Hijri) (Av 10, 4860 Jewish).

The First Crusade captured Tripoli on July 12, 1109, Beirut on May 13, 1110, Saida on December 5, 1110 and Tyre on July 7, 1124.

On December 5, 1110 Julian (December 11, 1110 Gregorian) (Jumada Ula 20, 504 Hijri) (Kislev 20, 4871 Jewish), city of Sidon (Saida) in Lebanon was captured by the Crusaders from the Fatimis after 47 days of siege. Since 1098, Sidon was held by the Fatimid Caliphate. In the summer of 1110, 20-year-old King Sigurd I of Norway (Sigurd Jorsalfare) arrived with a fleet of 60 ships and between 5000 and 6000 men, where he was received by Baldwin I of Jerusalem. Together, they began the siege of Sidon in October 1110, King Baldwin from the land and King Sigurd I from the sea. A siege from the sea was necessary to block help and supplies from the Fatimid Caliphate fleet in the city of Tyre 36 km further south. When a Venetian fleet arrived, they managed to dispel the Fatimid Caliphate attempt to break the blockade. As a result of the Crusaders takeover, the Lordship of Sidon was created and placed under the Kingdom of Jerusalem. Sidon was retaken by the Muslim Ayyubi Dynasty in 1187, but ten years later in 1197, the city came back under the Crusaders. In 1260 the Count of Sidon Julien Grenier sold the county to the Knights Templar. The same year the Egyptian Mamluks displaced the Knights Templar and conquered city of Sidon.

At midday, it was like midnight. The Americans were terrified. They wait for the darkness to lift, but it did not. Minutes began to feel like months. As the daytime hours of blackness wore on, some people began to think that there might never be light again and that Judgment Day may have come. The blackness lasted until midnight, when it finally dispersed and the stars appeared. This day is referred to as the Dark Day or Day of Darkness as well as Black Friday. Centuries later, scientists propose that the darkness of this day was the result of massive wildfires burning in the forests of Canada and a thick fog.]

It is also a holy city for Hindus) to appear for an examination. Her sister was living in AllahAbad and had left her husband after being subjected to abuse and torture and taken her son with her, away from her husband. This made her sister’s husband so angry that he planned to punish his wife by spilling acid onto her face. On May 19, 2014 (Rajab 19, 1435 Hijri) (Iyar 19, 5774 Jewish), while Reshma was with her sister on the way to the exam center, her sister’s husband with 2 other men attacked her sister. While her sister’s husband was about to spill sulphuric acid onto her sister, Reshma jumped to defend her sister without noticing that he was carrying a bottle of acid, the acid was spilled by mistake into the face of Reshma, instead of her sister’s face. The two girls were left to suffer in agony on roadside for several hours after nobody called an ambulance. When they finally managed to get somebody to call their parents, they were taken to a police station and then a hospital. This incident caused Reshma severe facial burns, disfiguring Reshma’s face, particularly her left eye. Reshma lost sight in her left eye permanently.
So, since that incident, Reshma has become an Awar (a person with a defective eye). Prophet Mohammad (p) said that Dajjal is an Awar. She is one of tens of girls in India who suffer from an acid attack annually, but her campaign to bring attention the plight of such victims of acid attacks was successful in catching the attention of the media WorldWide.

On Friday, May 19, 1780, starting from around 10:30 AM, much of New England (13 British colonies on the East Coast of North America that were the forerunners of what would become later the United States) and some parts of Canada, turned totally black with ominous clouds, erasing the sun. At midday, it was like midnight. The Americans were terrified. They wait for the darkness to lift, but it did not. Minutes began to feel like months. As the daytime hours of blackness wore on, some people began to think that there might never be light again and that Judgment Day may have come. The blackness lasted until midnight, when it finally dispersed and the stars appeared. This day is referred to as the Dark Day or Day of Darkness as well as Black Friday. Centuries later, scientists propose that the darkness of this day was the result of massive wildfires burning in the forests of Canada and a thick fog.

Muslims, under the leadership of Salah Eddeen Al-Ayyubi, defeated the Crusaders in the Battle of Hitteen (town of Hitteen that is known for its double hill, known as horns of Hitteen, is close to Tiberias, in Northern Palestine), on the feast of St. Martin le Boillant, Saturday, July 4, 1187 AD Julian (July 11, 1187 AD Gregorian) (Rabi Thani 26, 583 Hijri) (Tammuz 26, 4947 Jewish) (2154,793.5th or 2154,794th Julian Day). After a siege that lasted from September 20, 1187, Jerusalem, which was ruled by the Crusaders, finally surrendered on Friday, October 2, 1187 AD Julian (October 9, 1187 Gregorian) (Day of Israa & Miraj, Rajab 27, 583 Hijri) (Tishri 28, 4948 Jewish) (2154,883.5th Julian Day). On September 2, 1192 Julian (September 9, 1192 Gregorian) (Shaban 22 (or 23), 588 Hijri) (Elul 22, 4952 Jewish), Sultan Salah Eddeen and King of England Richard the Lion-hearted signed treaty over Jerusalem, at end of the Third Crusade, granting Muslim control over Jerusalem but allowing unarmed Christian pilgrims and merchants to visit the city. Crusaders re-gained control of Jerusalem for a 10- year period based on a treaty with the Ayubi Sultan, Al-Kamil Mohamadd. The Holy Roman Emperor Frederick II entered Jerusalem on March 17, 1229 (Rabi Thani 19, 626 AD), but control over Al-Aqsa Mosque was retained by the Muslims. In 1239, the 10-year treaty expired. Ayubi Sultan Al-Nasir Dawood captured Jerusalem in December 1239 AD (Jumada Al-Ula, 637 Hijri), but later, the Crusaders captured it again. Following a siege, Husam Eddeen Baraka Khan, leader of the Khawarizm, on behalf of Ayubi Sultan of Egypt Al-Salih, Najm-Eddeen Ayub, conquered Jerusalem from the Crusaders on July 11, 1244 AD Julian (July 18, 1244 AD Gregorian) (Safar 4, 642 AD) (Av 4, 5004 Jewish Calendar) (2175,620.5th Julian Day), but the citadel “Tower of David” held out against them until August 23, 1244 AD (Rabi Awwal 17, 642 Hijri) (Elul 17, 5004 Jewish), ending the second and last Kingdom of the Crusaders in Jerusalem. Jerusalem remained under the rule of Muslims until December 9, 1917 when Britain captured Jerusalem from the Ottomans.

The Umawi Mosque: 138 + 88 = 226 [The mosque is located in Damascus. The site of the mosque used to be the site of a temple of the Aramaic Canaanites for their god of thunderstorms and rain. When the Romans conquered Damascus in 64 AD, they transformed the temple into a temple for their own god of thunder, Jupiter, and was intended to serve as a response to the Jewish Temple of Jerusalem. In 391 AD, it was converted into Christian church, later on came to be known as Basilica of John the Baptist. It served as the seat of the Bishop of Damascus, who ranked second within the Patriarchate of Antioch after the patriarch himself. Damascus was besieged and captured by Muslim Arab forces led by Khalid ibn Al-Walid in 634 AD. Yazid son of Muawiya displayed the severed head of Al-Hussein (Prophet Mohammad’s (p) grandson) in his court on the site where the Umawi Mosque was later constructed by Caliph Al-Walid. The construction of the Umawi Mosque started by the commissioned by the Umawi Caliph Al-Walid in 705 AD (86 Hijri). Ibn Al-Faqih narrated that during the construction of the mosque, workers found a cave-chapel which had a box containing the severed head of Prophet Yahya son of Zakaria (John the Baptist). Caliph Al-Walid ordered that the head be buried under a specific pillar in the mosque which has been transformed into a shrine that still exists today. Salah Eddeen Al-Ayyubi was buried adjacent to the mosque and his tomb today is a shrine. The Mongols, under the leadership of Kitbuqa, in alliance with Crusader forces, captured Damascus from the Ayyubis in 1260 AD. A leader of the Crusaders in the invasion, Bohemond VI of Antioch, ordered Catholic Mass to be performed in the Umawi Mosque; however, the Muslim Mamluks, led by Sultan Qutuz and Baibars (military leader), took control the city later in the same year. The mosque was burned down several times, including: (a) in 1069 AD (461 Hijri) as a result of an uprising by the city's residents against the Fatimiyeen’s barbar army who garrisoned there, (b) in 1339 AD, (c) by Timur Lank who burned the whole city of Damascus on March 17, 1401 AD, (d) on October 13, 1479 (Rajab 26 - 27, 884 Hijri), (e) in 1893 AD (1311 Hijri). He advocated a hypothesis that everything in the Quran is structured around the number 19. Because the number of verses of the Quran did not fit his hypothesis, he claimed that the last 2 verses of Sura 9 are not authentic verses and should be excluded from the Quran. He later claimed to be a Messenger of Allah. Such controversial findings and claims were rejected by many Muslim scholars. He was stabbed to death in Arizona on January 31, 1990. Nineteen years after the murder, on April 28, 2009, the police in Calgary, Canada arrested Glen Francis, a 52-year-old citizen of Trinidad and Tobago, on suspicion of killing Rashad Khalifa. On December 19, 2012, the jury of his trial in the U.S., after a three-hour deliberation, found Glen Francis guilty of first-degree murder. Today, there is still a group called Submitters (which is a translation of the word “Muslims”) who follow his teachings. ]

Reshma Bano Qureshi: $551 + 59 + 620 = 1230$  [Reshma Bano Qureshi, a Muslim girl, when she was 17 years old, went from Mumbai (Bombay), India (where she lives with parents) to the northern Indian city of AllahAbad (City of Allah. It is also a holy city for Hindus) to appear for an examination. Her sister was living in AllahAbad and had left her husband after being subjected to abuse and torture and taken her son with her, away from her husband. This made her sister’s husband so angry that he planned to punish his wife by spilling acid onto her face. On May 19, 2014 (Rajab 19, 1435 Hijri) (Iyar 19, 5774 Jewish), while Reshma was with her sister on the way to the exam center, her sister’s husband with 2 other men attacked her sister. While her sister’s husband was about to spill sulphuric acid onto her sister, Reshma jumped to defend her sister without noticing that he was carrying a bottle of acid, the acid was spilled by mistake into the face of Reshma, instead of her sister’s face. The two girls were left to suffer in agony on roadside for several hours after nobody called an ambulance. When they finally managed to get somebody to call their parents, they were taken to a police station and then a hospital. This incident caused Reshma severe facial burns, disfiguring Reshma’s face, particularly her left eye. Reshma lost sight in her left eye permanently. So, since that incident, Reshma has become an Awar (a person with a defective eye). Prophet Mohammad
(p) said that **Dajjal is an Awar**. She is one of tens of girls in India who suffer from an acid attack annually, but her campaign to bring attention the plight of such victims of acid attacks was successful in catching the attention of the media Worldwide.

O I swear by Day of the Qiyama (Resurrection, Upheaval, or End Times). And I do swear by the self-reproaching spirit. Does the human being think that We are not going to assemble his bones? Yes, We are capable of re-constructing even his finger tips. However, the human being wishes to deny what is coming ahead of him. He asks: when will Day of the Qiyama (Resurrection, Upheaval, or End Times) be? When he sparkles the sight and eclipses the Moon. And the Sun and the Moon are combined. The human being says, on that day: where is (verse 1 – 10 of Sura 75):

Ramadan 1 is the 237th (or 238th) day of a Hijri year.

Al-Walid son of Abd-al-Malik, the 6th Caliph of the Umayyad Dynasty, ordered the Governor of Medina, Omar son of Abd Al-Aziz (who later became a Caliph) to renovate and expand the Nabawi Mosque (Prophet Mohammad (p)’s Mosque) in Medina. This renovation and expansion took 3 years to be completed, from Rabi Awwal 88 Hijri (707 AD) till in 91 Hijri (710 AD). He significantly expanded the Mosque. He annexed the rooms of Prophet Mohammad (p)’s wives to the Mosque; those rooms used to be adjacent to the Mosque. He constructed 4 minarets for the Mosque in the 4 corners of the Mosque, which became the first minarets in Medina. He constructed 20 gates for the Mosque. He introduced the caved (or curved) Mihrab (where the leader of Muslim prayer stands) for the first time. He decorated the Mosque with Marble and Gold. The next renovation of the Mosque was done by Mohammad son of AbdAllah, the third Caliph of the Abbasi Dynasty. He was called Al-Mahdi. His sons Al-Hadi and Harun Al-Rashid, from his wife Al-Khaizaran, later on became Caliphs. This
renovation took 4 years to be completed from 161 Hijri (779 AD) till 165 Hijri (782 AD). He extended the Mosque to the North. His name was inscribed on the walls of the Mosque.

At night, after Taraweeh Prayer, on Friday **September 22**, 1256 (**Ramadan 1**, 654 Hijri) (Tishri 2, 5017 Jewish), the **Nabawi Mosque** (Prophet Mohammad (p)’s Mosque) in **Medina** was damaged by a fire, for the first time, due to an unintended accident caused by a servant of the Mosque, at the time of the last Abbasi Caliph **Al-Mutasim BiAllah**, who ordered its repair, but its repair could not be finished during his reign because of Mongols’ conquest of Baghdad, ending the **rule of Abbasi Dynasty** from Baghdad in 1258 AD which started in 750 AD, thus **lasted 508 years**. So, the fire could have been a sign of Allah that the **end of the Caliphate of Abbasi Dynasty** was approaching.

Following the 1967 war between Israel and the Arabs which resulted in Israel’s capture of the West Bank (including East Jerusalem and Aqsa Mosque), Gaza, Sinai and Golan Heights, **UN Security Council Resolution 237** issued on **June 14 1967**. It recommended to the parties involved in the 1967 conflict to respect the Geneva Convention principles regarding treatment of prisoners of war and protection of civilian persons; specifically called on Israel to ensure the safety, welfare and security of the inhabitants of the areas where military operations have taken place and to facilitate the return of those inhabitants who have fled the areas since the outbreak of hostilities.

and recite the Quran rhythmically. We are going to Nulqi (throw/ deliver/ reveal/ bestow) to/upon you a heavy message (verse 4- 5 of Sura 73): **3269** (or **3270**)

**Translation:**

We are going to Nulqi (throw/ deliver/ reveal/ bestow) a heavy message to/upon you. This message is derived from the verses 4- 5 of Sura 73, which urges believers to recite the Quran rhythmically. The message is a warning and a reminder of the Day of Judgment.

The message is addressed to all mankind, reminding them of the whisperer, the Khannas, who whispers into the chests of people. It also mentions the Day of Talaqi, when the people will be Barizoon (clearly visible), and their actions will be revealed.

Further, it refers to the Promises of the Lord and the events that will unfold on that day. The message also includes references to the events of the Day of Judgment, such as the destruction of the faces, the entry of the Mosque, and the destruction of the houses.

The message concludes with a reminder to ask for forgiveness from the Lord and to seek His mercy. It also mentions the importance of remembering the Day of Judgment and preparing for it.

**Mathematical Notes:**

The numbers used in the document are likely related to the verses mentioned. For example, the number **3269** is mentioned in the context of Nulqi and the heavy message. The numbers **1218** and **4269** are also mentioned in connection with the Day of Judgment.

The mathematical expressions used in the document are likely related to the verses and their translation. The numbers are added together to form the total number, which is mentioned as **4269** (or **4270**).

**Other References:**

The document also includes references to the verses of the Quran, mentioning specific sections such as Sura 73, Sura 114, Sura 40, Sura 2, and Sura 18. These verses are mentioned in the context of the heavy message and the events of the Day of Judgment.

After 4 years of siege, the First Crusade captured Akka (Acre), for the first time, on May 26, 1104 Julian (June 2, 1104 Gregorian) (Shaban 29, 497 Hijri) (Iyar 29, 4864 Jewish). In 1187, Salah Eddeen Al-Ayyubi liberated Akka from the Crusaders. After a long siege and confrontation with Salah Eddeen Al-Ayyubi since August 28, 1189 (September 4, 1189 Gregorian) (Rajab 13, 585 Hijri), Akka (Acre) surrendered to the Crusaders of the Third Crusade on July 11, 1191 Julian (July 18, 1191 Gregorian) (Jumada Thania 16, 587 Hijri) (Tammuz 17, 4951 Jewish) (2156.261 Julian Day). One hundred years later, after a siege that started on April 5, 1291, Mamluk Sultan of Egypt Al-Ashraf Khalil conquered Akka (Acre), the last capital of the remainder of the Crusaders’ Kingdom, on May 18, 1291 (May 25, 1291 Gregorian) (Jumada Ula 17, 690 Hijri) (Sivan 18, 5051 Jewish). His father, Sultan Qalawun, conquered the Tripoli in 1289, and in 1290 marched on Akka, but he died in
November 1290 before launching the attack. He was succeeded by his son Al-Ashraf Khalil who decided to continue the attack. **Early in the morning of May 18, 1291**, the Sultan gave his order to launch an all-out attack on all points. Al-Ashraf Khalil’s army re-captured Akka by sunset on that day, with the exception of a fortress that served as headquarters of the Templars which stood on the west side of the city seashore. Under the cover of darkness, Thibaud Gaudin, the new Master of the Temple, left the fortress for Sidon with a few followers. On **May 28, 1291** (June 4, 1291 Gregorian), the Sultan’s forces captured the remaining fortress. With the fall of Akka, the Crusaders lost their last major stronghold of the **Crusaders’ Kingdom in the Middle East**. The capture of the Akka by the Mamluks marked the end of further crusades to the Levant. The **Crusaders’ Kingdom** continued to exist, theoretically, on the **Island of Cyprus**, where the Crusaders schemed and planned to recapture the mainland, but in vain.

Al-Walid son of Abd al-Malik, the 6th Caliph of the Umawi Dynasty, ordered the Governor of Medina, Omar son of Abd Al-Aziz (who later became a Caliph) to renovate and expand the the Nabawi Mosque (Prophet Mohammad’s Mosque) in Medina. This renovation and expansion took 3 years to be completed, from Rabi Awwal 88 Hijri (707 AD) till in 91 Hijri (710 AD). He significantly expanded the Mosque. He annexed the rooms of Prophet Mohammad’s wives to the Mosque; those rooms used to be adjacent to the Mosque. He constructed 4 minarets for the Mosque in the 4 corners of the Mosque, which became the first minarets in Medina. He constructed 20 gates for
the Mosque. He introduced the caved (or curved) Mihrab (where the leader of Muslim prayer stands) for the first time. He decorated the Mosque with Marble and Gold. The next renovation of the Mosque was done by Mohammad son of AbdAllah, the third Caliph of the Abbasi Dynasty. He was called Al-Mahdi. Father of Zionism, Jewish journalist Theodor Herzl’s famous booklet titled Der Judenstaat (The Jewish State), advocating the creation of a Jewish state, was published in Vienna, Austria, on February 14, 1896 (Shaban 29 or 30, 1313 Hijri) (Shevat 30, 5656 Jewish Calendar).

There is another interesting aspect about the date of Herzl’s Book, Shaban 29 (or 30), 1313 Hijri, is the fact that numerical value of Shaban is equal to the numerical value of the word “Book”. So, the date (Shaban + 1313) is numerically equal to (Book + Promise of the End Times).

September 13, 335 AD, Emperor Constantine the Great consecrated the Church of the Holy Sepulchre (Tomb of Jesus) in Jerusalem. Today, Christian Arabs call it Church of the Qiyama (Resurrection or Beginning of End Times). The Eastern Orthodox Church celebrates the anniversary of this event on September 13 annually. According to Eusebius of Caesarea, the Roman emperor Hadrian in the 2nd century AD built a temple dedicated to the Roman pagan goddess Venus to cover the cave in which Jesus had been buried. Around 325 AD (or 326 AD), the first Christian emperor, Constantine the Great, ordered that the temple be replaced by a church. During the building of the Church, Constantine's mother, Helena, is believed to have re-discovered the True Cross and the tomb of Jesus. After her arrival to Jerusalem, empress Helen destroyed all the pagan temples and reconsecrated the places desecrated by the pagans. She was interested in finding the Cross on which Jesus Christ was crucified based on Christians’ beliefs. So, she ordered the excavation of the place where the temple of Venus stood. There, they discovered the Sepulchre (Tomb / Grave) of Jesus and Golgotha (place of the crucifixion), and they also found three crosses and some nails. In order to determine upon which of the three crosses Jesus was crucified, Patriarch Macarius gave orders to place a dead person, who was being carried to a place of burial, upon each cross in turn. When the dead person was placed on the Cross of Christ, he immediately came alive. With the greatest of joy the empress Helen and Patriarch Macarius raised up the Life-Creating Cross and displayed it to all the people standing about. This Cross is today called “The True Cross”. The empress Helen began the construction of Church of the Qiyama which enclosed within its walls, the Golgotha (place of the Crucifixion), and the Sepulchre (Tomb / Grave) of Jesus, located near each other. The consecration of the Church was attended by hierarchs of Christian Churches from around the World: Bythnia, Thrace, Cilicia, Cappadocia, Syria, Mesopotamia, Phoenicia, Arabia, Palestine, and Egypt.

On November 26 (or 27), 1095 Julian (Zu Al-Qada 25 (or 26), 488 Hijri) (Kislev 26, 4856 Jewish) (2121,335.5th Julian Day), during the Council of Clermont in France, Pope Urban II delivered a speech urging the Christians to capture the Holy Land from the Muslims. This led to the first Crusade to start from Europe on August 15, 1096 and finally conquer Jerusalem on July 15, 1099.

Pope Benedict announced his resignation on February 11, 2013 (Rabi Thani 1, 1434 Hijri) (2456,334.5th or 2456,335th Julian Day).

In Turkey, at the time of President Kemal Ataturk, the language revolution to replace the Arabic script of the Turkish language with Latin script officially began in 1928. In May 1928, numbers written in Arabic were replaced with their Western equivalents. On November 1, 1928 (Jumada Ula 17, 1347 Hijri), the Grand National Assembly approved the new Latin alphabet of Turkish language that had been devised by a committee of scholars. Many members of the assembly favored gradually introducing the new letters over a period up to five years. However, Ataturk insisted that the transition last only a few months, and his opinion prevailed. On January 1, 1929 (Rajab 19, 1347 Hijri) (Teveth 19, 5689 Hijri), it became unlawful to use the Arabic alphabet to write in Turkish language.
